

K391 NC

HIGH-PERFORMANCE, NOISE-CANCELLING IN-EAR HEADPHONES WITH IN-LINE MICROPHONE AND DIGITAL ACTIVE NOISE CANCELLATION

BLOCK NOISE, EXPERIENCE BEAUTY.

AKG® K391 NC in-ear headphones turn a noisy space into a private concert or screening. Compact and easy to travel with, these noise-cancelling, in-ear headphones will make anything from a crowded airplane to a subway seem downright peaceful while delivering powerful, detailed sound directly to your ears. We've included a premium carrying bag, and an in-line microphone allows you to answer calls.

- 35-hour playing time
- Closed-back design

MAGNITUDE

- In-line microphone
- Carrying bag
- Flight adapter
- Frequency range: 12Hz to 24kHz

KEY FEATURES

K391 NC

Travel to your own theme song.

FAMOUS AKG® SOUND QUALITY

For 65 years, AKG Acoustics has been the leader in creating studio sound in headphones. We hold more than 1,400 patents for our groundbreaking products; and in 2010, we were awarded a GRAMMY® for technical achievement.

ACTIVE NOISE CANCELLATION

Tiny microphones on the outside of each earpiece enable the AKG K391 NC headphones to detect the difference between the sounds that they're playing and the sounds coming from the world around them. The AKG K391 NCs then create exact waveforms to cancel out the unwanted noise, so all you hear is the music or audio being fed to you through the headphone jack.

35-HOUR PLAYING TIME

The batteries that power the active noise cancellation in the AKG K391 NC will last for 40 hours at a time. And the battery is easily rechargeable via a USB port, making recharging convenient in airports, planes and other locations - just plug it into your laptop. Two cables for different phone models are included.

CLOSED-BACK DESIGN

AKG K391 NC in-ear headphones keep music in and noise out. Their closed-back design helps impede outside noise from entering your ears while also preventing the sounds you're hearing from leaking out for the outside world to hear.

IN-LINE MICROPHONE

AKG K391 NC in-ear headphones have an in-line microphone that lets you make calls that are every bit as crisp and noise-free as the music you listen to on your smartphone.

CARRYING BAG

Nothing slows down the listening process like having to undo a twisted Gordian knot of headphone cord. AKG K391 NC in-ear headphones come with a carrying pouch so you can store them safely and snugly without their ever becoming an unruly ball of tangles.

FLIGHT ADAPTER

Few things make travel more tedious than trying to watch an in-flight movie with courtesy airline earphones. AKG K391 NC in-ear headphones come with an adapter that makes them compatible with nearly every airline allowing you to fully enjoy in-flight entertainment in AKG-quality sound.
