

# HARMAN KARDON® BDS 575

Integrated Blu-ray Disc™ receiver featuring a 5.1-channel digital amplifier, *Bluetooth*® connectivity and HDMI® technology with 3D.

The experience evolves.

The Harman Kardon® BDS 575 receiver offers advanced access to online content, *Bluetooth*® wireless connectivity with portable devices, HDMI® technology with 3D, outstanding 5.1-channel audio/video performance, a streamlined user interface and sleek, modern styling. The receiver blends access to streaming content from online, portable and home devices, a 3D-capable Blu-ray Disc™ player and a 5.1-channel digital amplifier with the very latest Dolby® Digital and DTS® surround-sound decoding into a single, versatile component. The HDMI interface and other technologies provide top-quality 3D video and audio performance. And a user-friendly master remote control and on-screen menu make the system easy to set up and use.

## Highlights

- *Bluetooth*® wireless streaming
- Access to streaming content services
- HDMI® technology with 3D
- Dolby® Digital and DTS® surround-sound decoding
- Enhanced EzSet/EQ™ equalization
- Digital amplifier technology
- Control from smart devices
- Newly designed master remote control

Made for

# KEY FEATURES

## Harman Kardon® BDS 575

Music, videos, movies, photos . . . the versatile BDS 575 lets you enjoy them all – with amazing audio and picture quality. So instead of merely adding a home entertainment system to your life, now you can add life to your home entertainment system.

### Bluetooth® wireless streaming

Got an Android™ app, BlackBerry® smartphone or iPhone? You can wirelessly stream audio from nearly any mobile device to the BDS 575 receiver – and enjoy a serious upgrade in playback quality. It's perfect for turning your mobile media into a shared entertainment activity with family or friends.

### Access to streaming content services

The BDS 575 lets you stream entertainment from YouTube™, Picasa™ and Pandora® (USA, Australia and New Zealand only) sites. So you can enjoy movies, videos and music with quality audio that computers and portable devices can't touch.

### HDMI® technology with 3D

The BDS 575 receiver features HDMI® technology with 3D, so you get the most from 3D sources, not to mention digital video and audio at the highest quality level. Three convenient HDMI input connectors make it easy to connect 3D-capable HDMI source components.

### Dolby® Digital and DTS® surround-sound decoding

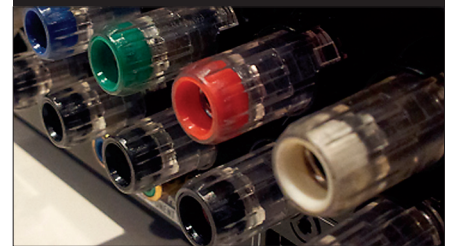

The BDS 575 receiver decodes high-resolution film soundtracks in their native formats – including Dolby® Digital and DTS® surround sound – so you hear the sound filmmakers intended. You also get the best possible audio from external sources connected via the HDMI interface.

### Enhanced EzSet/EQ™ equalization

No receiver operates in a vacuum. The BDS 575 calibrates itself to its specific speaker system. The enhanced EzSet/EQ™ feature automatically adjusts individual speaker volume levels, delay and equalization to create optimum performance in any room.

### Digital amplifier technology

The BDS 575 keeps the audio signal in the digital domain from the source to the amplifier output. This improves sound quality by reducing conversion artifacts. It also generates less heat, keeping the system slim and efficient.

### Control from smart devices

Here are two more things your smartphone or tablet can do: control and enhance your BDS receiver. Free iOS and Android apps enable seamless control of your entertainment system from your smart devices, plus wireless music streaming from those devices and more.

### Newly designed master remote

Not ready to ditch the remote just yet? Then keep the one that eliminates the need for any others. The new BDS programmable remote controls your entire AV system, so you can retire all those other remotes on your coffee table.

## Harman Kardon® BDS 575

A versatile, full-line media player wrapped in sleek, modern styling.

### What's included:

- 1 BDS Blu-ray™ receiver
- 1 Remote control
- 3 Remote control batteries (AAA)
- 1 Quick-start guide
- 1 AC cable
- 1 FM antenna
- 1 EQ microphone
- 1 HDMI cable
- 1 Safety sheet

### Audio Section

- Multi-channel power: 65 watts per channel, 20Hz – 20kHz, @ <1% THD, two channels driven into 6 ohms
- Input sensitivity/impedance (line inputs): 250mV/46k ohms
- Signal-to-noise ratio (IHF-A): -90dB
- Frequency response @ 1W (±0.5dB): 20Hz – 20kHz ±1dB

### FM Tuner Section

- Frequency range: 87.5MHz – 108.0MHz (US and EU)
- Usable sensitivity IHF: >14dB
- Signal-to-noise ratio (mono/stereo): -60dB/-55dB
- Distortion mono/stereo: 0.3%/0.5%
- Stereo separation: -45dB @ 1kHz
- Image rejection: -70dB
- IF rejection: -80dB

### Disc Player Section

- Supported disc formats: 5-inch (12cm) or 3-inch (8cm) BD-Video (single-layer or double-layer), DVD-Video, DVD+R/+RW, DVD-R/-RW, CDDA (CD audio), CD-R/RW discs
- Region code (BD/DVD): A/1 (USA); B/2 (EU); A/3 (Korea, SE Asia); A/4 (Mexico, Latin America); B/4 (Australia, New Zealand); C/5 (Russia, India); C/6 (China)
- Audio formats: Dolby Digital, Dolby Digital Plus, Dolby TrueHD, DTS Digital Surround®, DTS-HD High Resolution Audio™, PCM, WMA (DRM-free version only): WMA9, CBR @ 192kbps, VBR @ 355kbps, MP3: 32kbps – 320kbps bitrates, including variable-bitrate encoding
- Still-image format: JPEG
- Video signal system: NTSC (USA) or PAL (EU)
- Frequency response: 20Hz – 20kHz ±0.5dB
- Signal-to-noise ratio: -90dB (A-weighted)
- Dynamic range: 90dB (16-bit)
- THD/1kHz: DVD/CD: 0.1%
- Wow & flutter: Below measurable limits

### Video Section

- Television format: NTSC or PAL (selectable)
- HDMI version: With 3D and 30/36-bit Deep Color

### General

- Power requirement: 110 – 240V AC, 50/60Hz
- Power consumption: 120W RMS; <0.5W standby
- Dimensions (H x W x D): 5-1/4" x 22-11/16" x 14-1/2" (133mm x 576mm x 368mm)
- Weight: 7.7lb (3.5kg)

### Connectivity

- Access streaming content services such as YouTube and Pandora (USA, Australia and New Zealand only) sites
- DLNA® capability streams audio/video content from devices on your home network
- Bluetooth technology wirelessly streams high-quality audio from your Bluetooth-equipped mobile devices
- Three 3D and HD-audio capable HDMI inputs simplify connecting and switching other devices
- USB port located on the front panel lets you connect iOS® devices or flash drives
- Component video input, three digital audio inputs and two analog audio inputs increase your system's flexibility
- Remote infrared (IR) input connectors increase convenience and flexibility
- 12V subwoofer trigger output connector (for compatible subwoofers) turns subwoofer on and off with receiver to conserve energy

### Ease of Use

- Downloadable iOS software and Android app let you control the BDS receiver from your smart device
- Programmable master remote controls your entire audio/video system, so you don't need multiple remotes
- With the ability to view or play MPEG-1, MPEG-2, MP3, WMA and JPEG files, the BDS receiver is a full-line media player
- Playlist function makes it easy to play your favorite files from USB devices or CD-Rs
- Upgradable firmware automatically retrieves upgrades when receiver is connected to the Internet

### Performance

- HDMI technology with 3D lets you maximize the immersive experience from 3D sources and a 3D TV, and delivers the highest-quality digital video and audio (up to 1080p)
- Enhanced EzSet/EQ equalization calibrates the BDS receiver to your speakers for maximum performance in any room
- Digital amplifier technology keeps the audio signal in the digital domain from source to amplifier output, improving sound quality
